WORSHIP TEAM NEXT STEPS

Order Some In-Ear Headphones

- **KZ ZST Dynamic Hybrid Dual Driver In Ear Earphones** [**black ZST no mic**] ≈ **$20**
  These headphones currently get the best reviews from worship leaders around the world for the quality and price. They are great entry-level in-ears for singers and musicians.

- **KZ ZST Dynamic Hybrid Dual Driver In Ear Earphones** [**color ZST no mic**] ≈ **$20**
  These headphones currently get the best reviews from worship leaders around the world for the quality and price. They are great entry-level in-ears for singers and musicians.

- **In-Ear Headphone Case** [**black**] **$8**
  I would suggest getting a simple case like this to store your in-ear headphones.

The above are by far the best entry-level headphones recommended by hundreds of worship leaders across the country. If you are looking to spend more money on higher quality in-ear headphones, I'd love to help point you in the right direction.

Get The Apps For Your Devices

- **MX-Q** This app is used to control our in-ear monitor mixes. Connect to the Wi-Fi first and then the app will automatically detect and connect to the soundboard.

- **Planning Center Services** This app is primarily used to view each week's set list, see notes from the worship leader, listen to the songs, and practice along.

- **Planning Center Music Stand** This app is primarily used for viewing chord charts and sheet music for each week's set list. You can take and save notes on each page within the app.

- **Tempo (Frozen Ape Metronome)** Since we play to a metronome each week, this app is a great resource to practice along with at home. It's our personal favorite metronome app.
